DESCRIPTION

The ArkTac Series is a complete flat tactical flashlight system built for changing missions. Multiple light sources cover essential tactical needs, while dual control zones keep operation intuitive and response immediate. Its slim profile makes long hours of carry easier. Refined protection, clear status feedback, flexible charging, and modular carry options help keep the system ready on duty and beyond.

Finally, All-In-One Tactical

ArkTac Ultra and ArkTac Ultra Premium combine multiple light sources, laser configurations, and Instant Strobe to support a wide range of tactical scenarios. ArkTac focuses on the essential lighting responses for core tactical tasks.

Tail controls provide immediate access to critical outputs, while front controls make it easy to select the right light as the situation changes.

Debuting on ArkTac Ultra and ArkTac Ultra Premium, OAL 2 is Olight's toughest aluminum yet, offering upgraded resistance to scratches, impact, and deformation in demanding tactical environments.

Clear source and status feedback, intelligent protection, enhanced grip, and power-saving features improve control, safety, and endurance in the field.

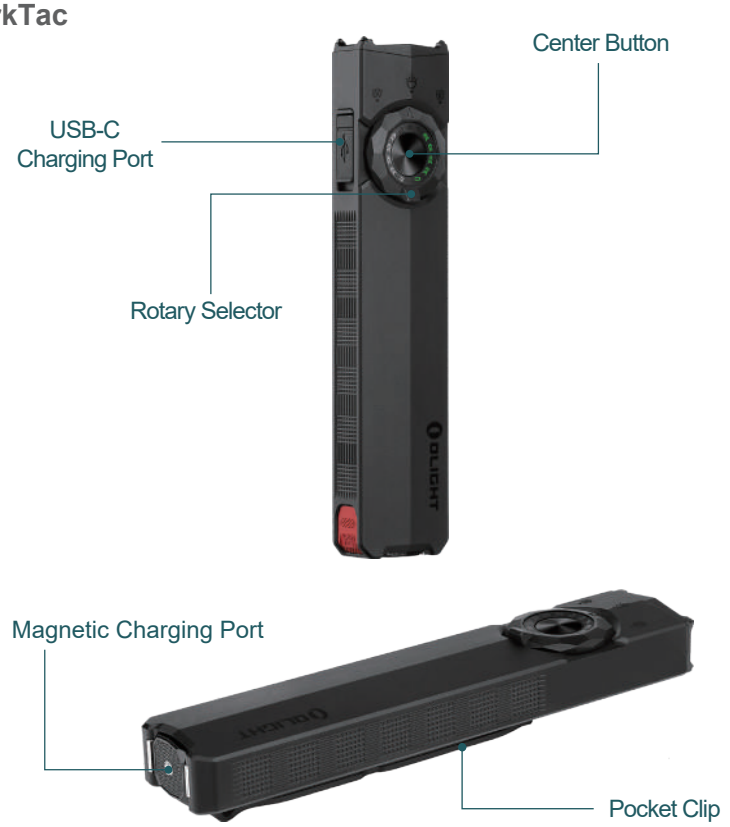

ArkSnap provides slim, secure, quick-access carry across duty gear and mounting setups. FieldBoost adds wearable backup power for extended duty and outdoor use.

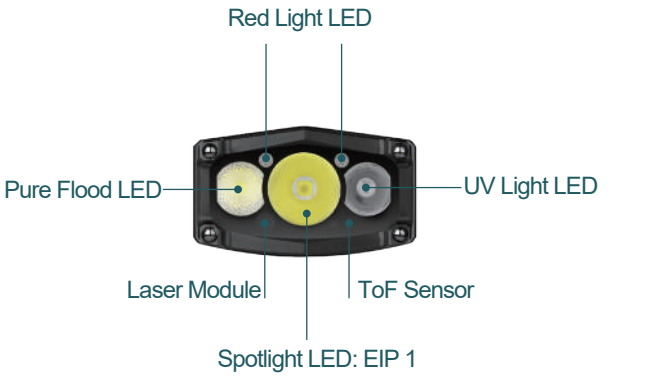

From illumination and control to carry and power, ArkTac brings everything together into one complete system—finally delivering true All-In-One Tactical capability.

FEATURES

ArkTac

- **4 Lights for Core Tactical Needs:** Pure Flood, Spotlight, Red Light, and UV cover close-range inspection, long-range search, low-light work, and verification, with Instant Strobe ready for warning or defense.
- **Intuitive Dual Control Zones:** The tail delivers instant tactical response with direct access to Spotlight and Pure Flood via the tail switch. Next to it, the CommandPoint provides Strobe by default and configurable shortcuts to Red Light or UV. Meanwhile, the front controls offer versatile light selection and brightness adjustments.
- **Flat Carry, Tough Unibody:** The 17 mm-thin profile reduces bulk during extended carry, while the one-piece construction provides dependable structural strength.
- **Thoughtful Details, Elevated Experience:** A micro-perforated status display, reinforced bezel, ToF smart protection, flexible charging, and power-saving features support confident operation.
- **Optional Magnetic ArkSnap:** The ArkSnap is a magnetic holster that enables quick flashlight access and secure carry on belts*, duty gear, and MOLLE systems.
  * Fits belts up to inches wide

ArkTac Ultra

- **5 Lights for Full Tactical Coverage:** Pure Flood, Spotlight, Red Light, UV, Green Laser, 4 laser combinations, and Instant Strobe cover a full range of tactical needs.
- **Intuitive Dual Control Zones:** The tail delivers instant tactical response with direct access to Spotlight (or optional Spotlight + Green Laser) and Pure Flood via the tail switch. Next to it, the CommandPoint provides Strobe by default and configurable shortcuts to Red Light, UV, or Green Laser. Meanwhile, the front controls offer versatile light selection and brightness adjustments.
- **OAL 2, Olight's Strongest Aluminum Yet:** OAL 2 has 1.86 times the hardness of 6061 aluminum, 1.89 times the tensile strength of TA2 titanium, and 1.61 times the yield strength of TA2 titanium. It offers greater resistance to scratches, cracking, and permanent deformation.
- **Thoughtful Details, Elevated Experience:** Illuminated light source indicators, a micro-perforated status display, reinforced bezel, ToF smart protection, and enhanced grip improve control and confidence.
- **Optional Magnetic ArkSnap:** The ArkSnap is a magnetic holster that enables quick flashlight access and secure carry on belts*, duty gear, and MOLLE systems.
  * Fits belts up to inches wide

ArkTac Ultra Premium

- **5 Lights for Full Tactical Coverage:** Pure Flood, Spotlight, Red Light, UV, Green Laser, four laser combinations, and Instant Strobe cover a full range of tactical needs.
- **Intuitive Dual Control Zones:** The tail delivers instant tactical response with direct access to Spotlight (or optional Spotlight + Green Laser) and Pure Flood via the tail switch. Next to it, the CommandPoint provides Strobe by default and configurable shortcuts to Red Light, UV, or Green Laser. Meanwhile, the front controls offer versatile light selection and brightness adjustments.
- **OAL 2, Olight's Strongest Aluminum Yet:** OAL 2 has 1.86 times the hardness of 6061 aluminum, 1.89 times the tensile strength of TA2 titanium, and 1.61 times the yield strength of TA2 titanium. It offers greater resistance to scratches, cracking, and permanent deformation.
- **Thoughtful Details, Elevated Experience:** Illuminated light source indicators, a micro-perforated status display, reinforced bezel, ToF smart protection, and enhanced grip improve control and confidence.
- **Ready-to-Go Storage Case:** Keeps the flashlight and included ArkSnap and Mounting Bracket, dual charging cables organized, protected, and ready for deployment.
